

Advocate

Ring out your church bells and hoist up your prayer nets of love
Won't you come out today?
And stand with the sidewalking saints
who are out here each day buying us time...

Set your alarm clocks, and wake up real early and come
Oh, please don't be late
'Cause I need someone just like you
who will speak for my life
before it's too late...

I need someone like you to be my advocate
I need someone like you to be my advocate
Be my advocate
My advocate

Well I could be an Einstein or maybe a Mozart
or even a doctor who cures a disease
I could be a fireman who climbs through the flames
to save someone from your family

But I won't get a chance unless you speak for me
No I won't get a chance unless you stand for me
No I won't get a chance unless you pray for me
No I won't get a chance unless you stay for me

And be my advocate
My advocate

Won't you arbitrate for me?
Won't you arbitrate for me? And speak for me?
Won't you arbitrate for me? Speak for me?
And be my advocate?
Be my advocate
My advocate

So ring out your church bells and hoist up your prayer nets of love
Won't you come out today?
And stand with the sidewalking saints
who are out here each day
They're buying us time...

Set your alarm clocks, wake up real early, but come
Oh, please don't be late

She's got an appointment at 8
