CME/CEUs available for MD, NPC, PA, LMSW,  
LCSW, LSW, LPC, LMFT, LCDC, Pys.D., Ph.D.  
and CNE pending (details on reverse side)

### ABOUT THE CONFERENCE

The conference features clinically-based presentations on the physiological and psychological effects of abortion and on natural fertility care and treatment. At the conclusion of this activity, the participant should be able to:

- ⇒ Identify the **physical and mental health effects of abortion**, including critical assessment of clinical evidence of post-abortion trauma
- ⇒ Establish evidence-based **screening protocol for pre-abortion risk factors** which may compromise a woman's post-procedural health
- ⇒ Develop a **therapeutic response and referral sources for post-abortion care**, based on a patient-centered perspective
- ⇒ Discuss **natural fertility-based care options and innovative reproductive technologies**, including an overview of NaProTechnology.

This conference will assist attendees in providing compassionate, informed care to patients considering or having obtained an abortion or seeking natural alternatives to artificial reproductive technologies.
