You can walk for life even if you live in another state. You don't have to walk on "Walk Day." You can walk earlier or later. Come rain or shine.

Why Have a Walk?

20 Years of "Walking the Walk"

With Life literally hanging in the balance, the Walk for Life is your opportunity to fight back! Abortion advocates are emboldened in their war on the unborn

and continue to fight to push their sexual chaos in our schools and culture. The government is enriching the enemies of life, while we depend on your help to be able to fight for women and babies.

When you "Walk the Walk", you are partnering with Texans for Life by:

- taking aim at the heart of abortion as we reach thousands of teenagers with our life-saving message of abstinence;
- promoting Life through record-setting rallies, speeches, workshops, newsletters and the web—alerting and educating churches, pastors, college students and grassroots activists to protect women and babies;
- effectively advocating for laws that protect women and children from abortion, like the Sonogram bill, as well as laws that promote abstinence for our young people; and
- sharing our resources with pregnancy assistance centers and other pro-life ministries.

.....
Tear off this form, fill out the other side and mail it to Texans for Life, or turn it in at your church.

Texans for Life — A Texas Non-Profit Corporation — 1976–2011
35 Years of Fighting for the Right of Every Baby to Have a Birthday

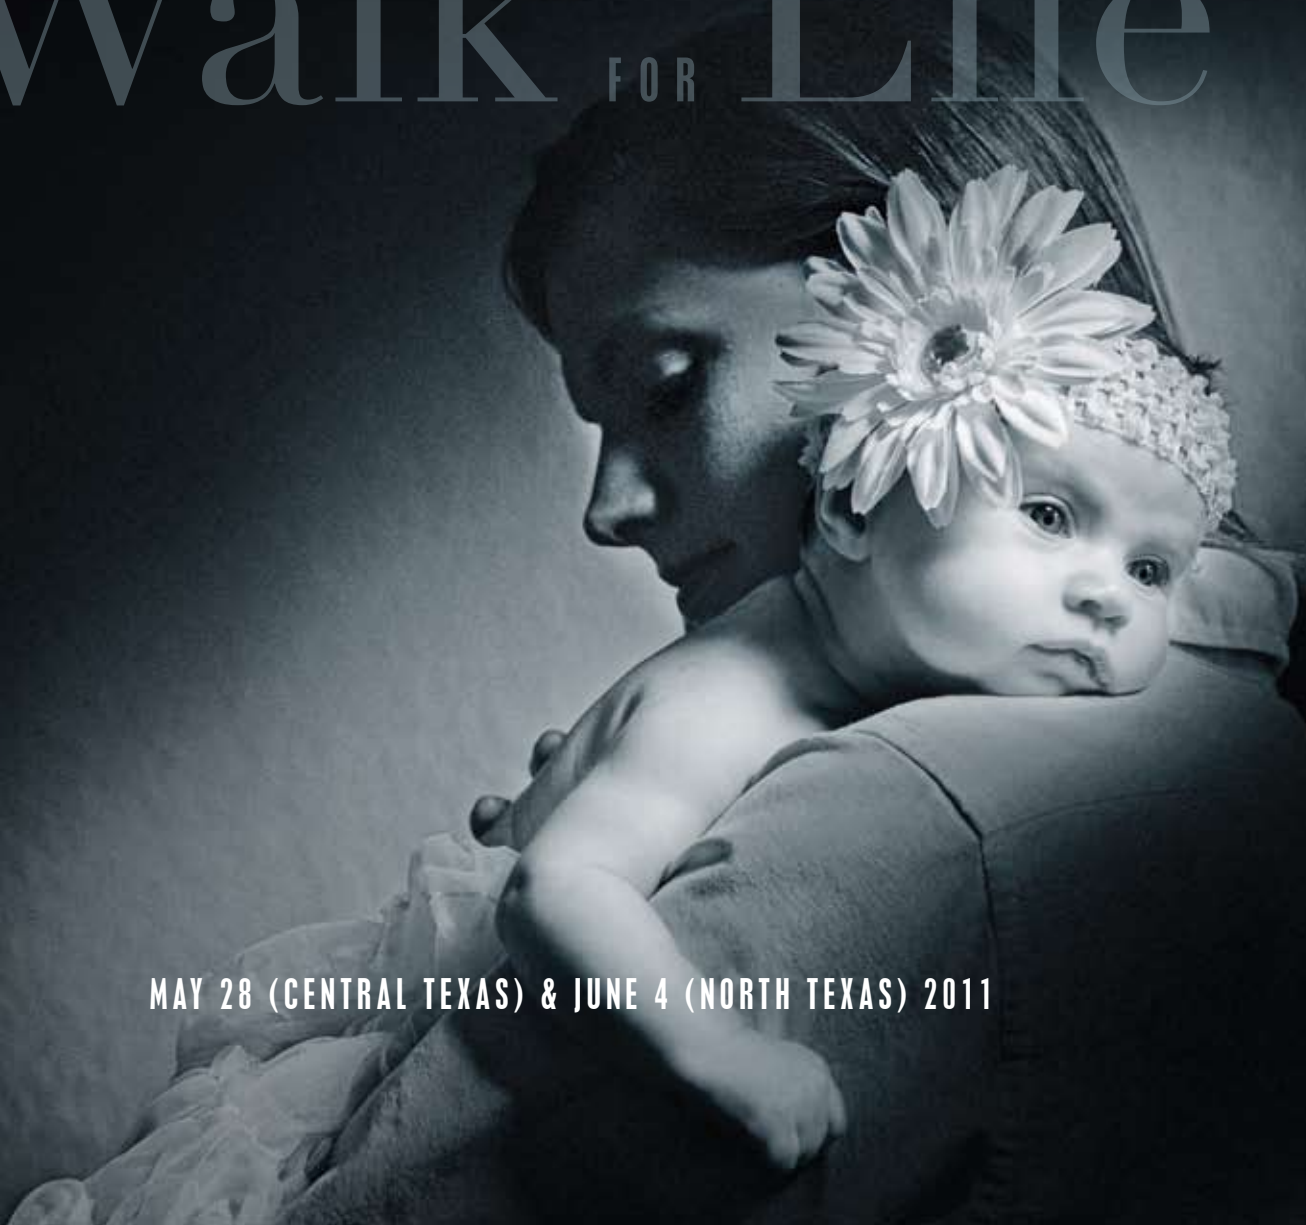

On the Cover

Hats off to our sister organization, Texans for Life Committee, a driving force behind the Sonogram Bill in the Texas Legislature! All over the nation, sonograms are saving lives in pregnancy centers, and changing hearts in the debate over abortion. Sonogram images dot our refrigerators, baby books and social media, bringing the humanity of the unborn child to the forefront in ways we never could have predicted. No wonder the majority of Americans are now pro-life and abortion rates have fallen! As Texas prepares to join 21 other states with pre-abortion sonogram laws, join us in celebrating this milestone with the potential to save so many moms and babies from abortion!
